Mineral Exploration Insurance Facility

Proudly endorsed by the Association of
Mining and Exploration Companies

Gallagher

Insurance | Risk Management | Consulting

Join over 250 Mineral Explorers enjoying the highest standard of risk protection today.

At Gallagher, we understand the risks and complexities of mineral exploration. Besides the challenges of raising funds and developing an ore body, the burden placed on directors and officers to ensure the business is adequately protected is immense. Getting any part of running a mineral exploration company wrong can have catastrophic consequences, and may put directors' and officers' personal assets at risk.

Complex cover made easy

That is why, in 2006, we launched the Mineral Exploration Insurance Facility (MEIF). The MEIF is a ground breaking insurance solution designed specifically to meet the ever-evolving and highly technical risks of exploration, reporting and compliance, that also protects the assets of the business and directors and officers alike. Furthermore, the facility has been developed using financially secure, market leading insurers to offer competitive pricing without compromising on cover, claims service or flexibility. The MEIF is the only insurance solution proudly endorsed by AMEC.

Benefits explored

- Broad coverage specifically designed for your risks
- Flexible cover options to evolve with project risk changes
- Quality service delivered by experienced exploration and mining industry specialists
- Worldwide cover wherever your tenements and projects are located
- Assistance provided with simple application and renewal process
- No unnecessary paperwork

Products

- Directors & Officers Liability
- Commercial Motor
- Corporate Travel
- Expatriates
- Personal Accident
- Workers' Compensation
- Property
- Marine Transit (including mineral samples)
- Public & Products Liability

Directors & Officers Liability

Directors & Officers Liability insurance is the flagship product of the MEIF. It is specifically catered to the risks of explorers and provides broad coverage for "wrongful acts" in the capacity of a director or officer. The policy is easy to administer and can be tailored to cover:

- Statutory Liability including inquiries and OHS investigations
- Employment Practices Liability
- Crime Protection
- Company Securities - Side C
- Kidnap and Ransom
- Overseas activities and interests

Exploration will always be a high risk/high reward venture and susceptible to ever-changing economic conditions. Gallagher are aware of these challenges and continue to seek out better deals and more coverage options; ultimately delivering even better value for money for your insurable risk dollar.

In these difficult times, you owe it to your company to give your insurance program a "health check" to ensure you are driving your premium dollar as far as it can go. We have the means to deliver better value without compromise on cover.

Why choose us

Partner with Gallagher and you will have access to our risk management expertise throughout the journey into development and production. A further benefit is the continuity of understanding of the project by your Gallagher mining team.
